A free holistic medical camp conducted for the first time in India in 2012 had her in the forefront counselling and treating with homoeopathy medicines 25 patients from all over the country (10 from Jammu & Kashmir).

Project Nirmaan is a free OPD in Mumbai which offers complete medical assessment and counselling for under privileged friends with spinal injury wherein all the medical branches are available to the patient under one roof thereby a patient on wheelchair need not go from hospital to hospital seeking appointments of different specialists. Herein each of the patients are prescribed homoeopathic medicines to help them overcome their day to day mental, physical and emotional problems thereby reducing the need for allopathic medications.

So far 75 such patients from urban as well as rural areas of Maharashtra, Madhya Pradesh, Uttar Pradesh, Bihar have benefited in the span of one year. This is a path-breaking concept ever practised anywhere in the world.

4. She has propagated the cause of Homoeopathy through her teaching at **CMP Homoeopathic Medical College** without any honorarium for 26 years now. She both educates and inspires her students.
5. Her book **Temperament Types – A Study** is now a recommended text book in most colleges and her seminars based on this have been house-full with record attendance.
